Introduction

There were over 11,500 (7%) **more** Butler County votes in the NOV 3 2020 election than in the 2016 presidential election and more than any other general election going back 20 years, which is highly unusual given the country was in the midst of a strict covid pandemic lockdown in 2020 and candidates weren't able to rally supporters as in past years leading up to a presidential election. The volume of 2020 votes is more than twice the Voting Age Population increase between 2016 and 2020. If around 75% of the increase in Voting Age Population registered to vote and cast ballots, almost 8,000 **existing** Butler County citizens over the age of 18 would have to be motivated to Cast Ballots (and possibly register to vote), when they weren't motivated to vote in 2016.

While residents of OHIO still have many unanswered questions about the election process and procedures surrounding the Nov 3 2020 election, the findings in Butler County raise numerous questions that must be answered in order to fully understand the Voter Registration and the Vote Recording Process.

We are attempting in good faith to work with Butler County Election officials and the Board of Elections to answer many of the questions surrounding the data contained in the post election State Wide Voter File. Hopefully, this analysis will highlight some areas of concern that require further attention, and possibly recommendations for corrective action.

The following assumptions govern this Data Analysis:

- The "Areas of concern" are NOT UNIQUE to Butler County and appear in other county data. None the less, because this analysis involves Butler County Voter Files, the responsibility for action is on the county to address.
- All sources of data are OPEN SOURCE information made available at the County and State Level or have been acquired by a FOIA request. We understand Ohio Voter Rolls are Dynamic in nature and continually updated.
- We understand there are NUMEROUS sources supplying voter registration applications: online application process through SoS, BMV's, Job and Family Services, Social Security Administration, Libraries, Public School Data Bases, Special Interest Groups (NGO's) assisting with voter registration, and ANY Federal agency.
- We understand there are NUMEROUS sources supplying information on potential non-registered voters and voter file updates: (NCOA, SSA updates, ERIC, and residents themselves who responsibly update and maintain their voter file data.
- Ohio is a 100% ERIC participation state; all counties are included in ERIC access to databases and ensuing reporting per the ERIC contract and bylaws.
- The Secretary of State guidelines, policies and procedures are followed with respect to the voter file maintenance, deadlines for recording the vote to the voter file.
- Actual voter registration applications are retained at the county level.
- Once a voter is registered, there is a multi-year process required to remove the voter file from the Voter Management System, so it should be a PRIORITY to carefully check each voter registration for accuracy prior to approving each registration application.

An observation that was made: After ERIC was instituted in Ohio in 2012, the number of new voter registrations that never voted increased dramatically, averaging 18.4% of all registrations. In 2017, 25% of all new voter registrations did not cast a vote.

FINDINGS & QUESTIONS

		PAGE
242	DIFFERENCE BETWEEN DEC 4 2020 SWVR & NOV 3 2020 SOS/BOE OFFICIAL VOTE COUNT	
484	POTENTIAL DUPLICATE VOTER REGISTRATIONS INCLUDE 200 SETS OF 2 (400 VOTER REGISTRATIONS TOTAL) AND 28 SETS OF 3 (84 VOTER REGISTRATIONS TOTAL) WITH THE SAME/VERY SIMILAR NAME< ADDRESS, & DATE-OF-BIRTH, BUT WITH DIFFERENT STATE AND COUNTY VOTER IDs; ALL REGISTERED AFTER OCT 5 2020 DEADLINE	6
256	MINIMUM DUPLICATE AND INVALID VOTER REGISTRATIONS ON DEC 4 2020 SWVR (200+28+28)	
174	SUSPICIOUS VOTES	
	<i>How is it possible to have virtually identical voter registrations with different State and County ID numbers?</i>	
many	WHAT HAPPENED TO THE STATEWIDE VOTER RECORD (SWVR) DATABASE BETWEEN NOV 3 2020 AND DEC 4 2020? Records on the SWVR were added, deleted and changed between Nov 3 2020 and Dec 4 2020 outside of normal new registrations and changes to registrations.	8
346	PRECINCT ANALYSIS: Liberty Twp 3 Dec 4 2020 SWVR reported more votes than Official/Certified SOS/BOE Reporting <i>Why doesn't the BOE Report reconcile to the file?</i>	10
30	INDIVIDUALS REGISTERED TO VOTE USING COMMERCIAL MAIL STORES AS RESIDENCE ADDRESS FOR VOTING PURPOSES IN VIOLATION OF ORC 3503.02	11
19	INDIVIDUALS REGISTERED TO VOTE USING COMMERCIAL MAIL STORES AS RESIDENCE ADDRESS FOR VOTING PURPOSES ILLEGALLY VOTED, IN VIOLATION OF ORC 3599.12	
41,522	NEW VOTER REGISTRATIONS JAN 1 2020 - OCT 5 2020, ALMOST THE SAME AMOUNT AS ADJOINING HAMILTON COUNTY, WHICH HAS MORE THAN TWICE THE POPULATION AS BUTLER COUNTY <i>Why does Butler County have so many more new voter registrations than Hamilton County in 2020?</i>	13
8,150	REGISTERED TO VOTE JAN 1 2020 - OCT 5 2020 AND DID NOT VOTE <i>Are these valid registrations from residents who wanted to register to vote?</i>	
33,372	NEW VOTER REGISTRATIONS JAN 1 2020 - OCT 5 2020 WHO VOTED NOV 3 2020	
19,885	NEW VOTER REGISTRATIONS JAN 1 2020 - OCT 5 2020 WITH PREVIOUS VOTER HISTORY WHO VOTED NOV 3 2020 This includes existing registered voters who moved to a different precinct and file a Change of Address which creates a new voter record with a new registration date	
13,487	NEW VOTER REGISTRATIONS JAN 1 2020 - OCT 5 2020 WITHOUT PREVIOUS VOTER HISTORY WHO VOTED NOV 3 2020 There were new voter registrations EVERY SINGLE DAY WITHOUT EXCEPTION between Jan 1 - Oct 5 2020. <i>Are online or 3rd party registrations added to the Voter Management System without manual review by BOE staff? If so, registrations could potentially be received in the Voter Management System each calendar day. If BOE 'receives each voter registration, wouldn't they be 'received' with a Registration Date of federal working days?</i> There were over 8,000 new voters who registered in Butler County in Oct 2020, an average of 258 per day. <i>Does BOE staff handle each incoming voter registration?</i> <i>8,000 new voter registrations in a month would require a lot of staff time to process.</i> <i>Or are some automatically added to the Voter Management System directly by 3rd parties?</i> Registrations between Jan 1 - Oct 5 2020 include almost 2,000 voter registrations with birth year 2002 (18 year olds) EVERY SINGLE DAY Jan 1 - Nov 3 2002 with the exception of 1 day. Registrations between Jan 1 - Oct 5 2020 include almost 1,500 voter registrations with birth year 2001 (19 year olds) EVERY SINGLE DAY Jan 1 - Dec 31 2001 with the exception of 9 days. 42% of all new voter registrations Jan 1 - Oct 5 2020 without previous voter history were 18 - 22 year olds (5,668 out of 13,487); a spread of 5 years made up almost half of all 2020 new voter registrations. <i>What is the source of all these new voter registrations? Was ERIC involved?</i> <i>Are all these new voter registrations valid?</i>	
5,034	NEW VOTERS REGISTERED JAN 1 - OCT 5 2020 WITH NO PREVIOUS VOTER HISTORY AND DID NOT VOTE NOV 3 2020 <i>Why did so many go to the trouble to register to vote and not vote?</i> <i>Are all of these valid voter registrations? What is the source of these voter registrations?</i>	
8,837	NEW VOTERS REGISTERED OCT 6 - DEC 31 2020	
5,927	NEW VOTERS REGISTERED AFTER OCT 5 2020 DEADLINE & VOTED NOV 3 2020	
2,910	NEW VOTERS REGISTERED OCT 6 - DEC 31 2020 AND DID NOT VOTE NOV 3 2020 <i>Does it make sense that almost 2 times more voters registered to vote Oct 6 - Dec 31 2020 and DID NOT VOTE than the entire new Voting Age Population in 2020?</i> <i>What is the source of these registered voters? Was ERIC involved?</i>	

3,635	OVER 10% OF THOSE REGISTERED BETWEEN JAN 1-OCT 5 2020 DID SO ON THE VERY LAST DAY TO BE ELIGIBLE TO VOTE IN THE NOV 3 2020 ELECTION <i>What are the main sources of these registrations?</i> <i>What was BOE staff involvement in processing 3,635 new voter registrations in on day?</i>	
3,028	NEW VOTERS WHO REGISTERED ON OCT 5 2020 AND VOTED NOV 3 2020	
607	NEW REGISTERED VOTERS WHO REGISTERED ON THE DEADLINE DATE TO VOTE NOV 3 2020 BUT DIDN'T VOTE <i>Are all of these new registrations valid?</i>	
8,637	NEW VOTERS REGISTERED OCT 6 - DEC 31 2020	
5,927	NEW VOTERS REGISTERED AFTER OCT 5 2020 DEADLINE & VOTED NOV 3 2020	
95	LESS REGISTRATION DATE OCT 6 2020 FOR POTENTIAL BALLOTS POSTMARKED OCT 5 2020	
3,407	LESS TOTAL PROVISIONAL BALLOTS COUNTED This assumes every Provisional Ballot Counted changes the Registration Date due to an address change outside of existing precinct. The actual number of Provisional Ballots Counted that changed Registration Date may be much lower. <i>Are there any other circumstances that could validate New Voter Registrations after Oct 5 2020?</i>	
2,425	MINIMUM SUSPICIOUS REGISTRATIONS FOR VOTES AFTER OCT 5 2020	
2,425	MINIMUM SUSPICIOUS VOTES FOR VOTER REGISTRATIONS AFTER OCT 5 2020 Actual number may be higher depending on the number of Provisional Ballots Counted that did not change Registration Date.	
5,390	TOTAL NEW VOTERS REGISTERED ON NOV 3 2020	
4,785	REGISTERED ON NOV 3 2020 and VOTED	
4,474	TOTAL PROVISIONAL BALLOTS CAST	
311	MINIMUM SUSPICIOUS REGISTRATIONS FOR REGISTRATIONS ON NOV 3 2020	
311	MINIMUM SUSPICIOUS VOTES FOR REGISTRATIONS NOV 3 2020 This assumes every Provisional Ballot Counted changes the Registration Date due to an address change outside existing precinct. The actual number of Provisional Ballots Counted that changed Registration Date may be much lower. <i>Are there any other circumstances that could validate New Voter Registrations and Votes on Nov 3 2020?</i>	
1,781	REGISTERED ON NOV 3 2020, VOTED AND HAD NO PRIOR VOTING HISTORY	
605	REGISTERED ON NOV 3 2020 AND DID NOT VOTE	
23,402	VOTERS IN CONFIRMATION VOTER-STATUS	14
6,778	VOTERS IN CONFIRMATION VOTER-STATUS WITH REGISTRATION DATE IN YEARS 1944 THROUGH 2010 Regardless of the source of voter registration or change in a voter registration, a Confirmation Card is mailed to the registered voter at their residence address to confirm their voter registration or change in voter registration. Until the Confirmation Card is returned to BOE and processed, or Voter ID is presented upon casting a ballot, the voter remains with a Voter Status of Confirmation. <i>When is a voter registration removed from database due to inactivity?</i> Once a voter casts a ballot with verified identification, Voter Status is changed to Active. Observation: A large number of Voters in Confirmation Status may indicate Inflated Voter Rolls and the potential of voters being registered to vote without their knowledge or coerced. <i>Why go to the trouble to register to vote and not make an effort to confirm your voter registration by returning a mailed confirmation?</i> <i>What are the sources of all the voter registrations in Confirmation voter status?</i>	
436	VOTERS WHO REGISTERED TO VOTE IN 2020 HAVE CONFIRMATION VOTER-STATUS ON DEC 4 2020 SWVR <i>Why go to the trouble to register to vote and not make an effort to confirm your voter registration by returning a mailed confirmation?</i> <i>What are the sources of all the voter registrations in Confirmation voter status?</i>	15
214	VOTERS HAVE CONFIRMATION VOTER-STATUS ON DEC 4 2020 SWVR AFTER VOTING NOV 3 2020 <i>Why wasn't Voter-Status updated to Active?</i>	16
298	VOTERS REGISTERED TO VOTE ON A FEDERAL HOLIDAY IN WHICH FEDERAL WORKERS DO NOT WORK <i>How is it possible for these voter registrations to be valid?</i>	17
186	VOTERS WHO REGISTERED TO VOTE ON A FEDERAL HOLIDAY CAST VOTES ON NOV 3 2020 <i>If voter registrations aren't valid, votes aren't valid either.</i>	
4,120	REGISTERED VOTERS HAVE A REGISTRATION DATE EARLIER THAN JAN 1 2014 AND HAVEN'T VOTED GOING BACK TO 2000 <i>Why haven't these registered voters been removed from the Voter Management System?</i>	18
28	VOTERS WERE TOO YOUNG WHEN THEY REGISTERED TO VOTE <i>How is it possible for these voter registrations to be valid?</i>	19
11	VOTERS WERE TOO YOUNG WHEN THEY REGISTERED TO VOTE AND VOTED NOV 3 2020 <i>If voter registrations aren't valid, votes aren't valid either.</i>	

38 REGISTERED VOTERS AGE 100-112 VOTED NOV 3 2020

A registered voter can be declared incompetent for voting purposes by a probate court, although there doesn't appear to be any program in which the Probate Courts notifies Butler County BOE of persons declared incompetent.

How can BOE confirm these registered voters (or any registered voter) is competent for voting purposes?

PER SOS ELIGIBILITY & RESIDENCY REQUIREMENTS, A RESIDENT MUST NOT HAVE BEEN PERMANENTLY DISENFRANCHISED FOR VOTING PURPOSES FOR VIOLATING ELECTION LAWS.

It does not appear this information is forwarded to BOE for processing.

How can BOE obtain access to this information so that this qualification can be verified?

1ST TIME REGISTERED VOTERS DO NOT ALWAYS APPEAR TO HAVE SEQUENTIAL COUNTY OR STATE VOTER IDs

Why are some new voter registration County Voter IDs and/or State Voter IDs not issued sequentially?

STATE ID	COUNTY ID	REGISTRATION DATE
OH0025319634	699749	2020-10-04
OH0025319988	699767	2020-09-30

OH0025331399	700142	2020-03-12
OH0025331504	700259	2020-10-02
OH0025332507	700274	2020-02-01

THERE WERE A SIMILAR NUMBER OF REGISTERED VOTERS IN THE AGE GROUP 18-24 IN 2016 (28,312) AS IN 2020 (28,284); HOWEVER, THERE WAS AN ENORMOUS INCREASE IN THE NUMBER OF VOTERS IN THE 18-24 AGE GROUP IN 2020, INCREASING FROM 6,507 VOTING in 2016 TO 17,040 VOTING in 2020, A GAIN OF 10,533 or 262%.

What is the source of all of these new registrations? Was ERIC involved?

This is an unnatural increase in votes, especially during COVID in which students in many colleges were taught remotely.

There were increases in all age groups 25-74; however, the increase per age group was no more than 3,600 for every age group except the 18-24 age group.

An analysis of Ohio's Population, Registered Voters and Ballots Counted over the years

2008 PRECINCTS WITH > 100% VOTER TURNOUT

WE THE PEOPLE OF BUTLER COUNTY HAVE LOST CONFIDENCE THAT OUR ELECTIONS ARE SECURE AND ACCURATE

20

23

484 POTENTIAL DUPLICATE VOTER REGISTRATIONS AND 174 SUSPICIOUS NOV 3 2020 VOTES

- 200 sets of 2 (400 voter registrations total) with the same/very similar name, address and date-of-birth, but with different State and County Voter Identification Numbers
- 28 sets of 3 (84 voter registrations total) with the same/very similar name, address and date-of-birth, but with different State and County Voter Identification Numbers
 - All registered after Oct 5 2020 deadline.
- Many State Voter ID (SOSID) and Registration Date combinations are inconsistent with a sequential assignment of State Voter Identification number; for example SOSID #100 is on the same voter record as registration date 10/20/2020. SOSID #125 is on the same voter record as registration date 10/25/2020. It would be inconsistent for SOS #150 to be on the same voter record with a registration date of 10/6/2020, yet these inconsistencies are common on the Statewide Voter Record.
 - How is it possible for 200 registered voters with the same or very similar names, addresses and date-of-birth have a duplicate voter registration with different State and County Voter Identification Numbers?
- How is it possible for 28 registered voters with the same or very similar names, addresses and date-of-birth to have triplicate voter registrations with a different State and County Voter Identification Numbers?
 - ‘Very similar names’ include the following examples:

VOTER RECORD 1	VOTER RECORD 2	VOTER RECORD 3
Conrad, Norma Frances	Conrad, Norma F	
Dill, James R	Dill, James Russell	Dill, James Russell
Roth, Jennifer JO	Roth, Jennifer J	

- How is it possible for new registered voters to vote in the Nov 3 2020 election when they are not on the Nov 3 2020 SWVR and appear on the Dec 4 2020 SWVR with a Registration Date beyond the Oct 5 2020 deadline to vote?
- How is it possible for new registered voters to have Voting History prior to Nov 3 2020 when they are not on the Nov 3 2020 SWVR and appear on the Dec 4 2020 SWVR with a Registration Date beyond the Oct 5 2020 deadline to vote?
- How is it possible for existing registered voters to have address changes on the Dec 4 2020 SWVR when they don’t exist on the Nov 3 2020 SWVR?
- How is it possible for new registered voters (after Oct 5 2020 deadline) who are not on the Nov 3 2020 SWVR but appear on the Dec 4 2020 SWVR?

At minimum, there are 256 (200+28+28) duplicate and invalid voter registration records on the Dec 4 2020 Statewide Voter Record, and 174 suspicious Nov 3 2020 votes.

Sample of duplicate and triplicate voter registration records and suspicious votes

WHAT HAPPENED TO THE OHIO STATEWIDE VOTER RECORD DATABASE BETWEEN NOV 3 2020 AND DEC 4 2020?

There are records on the Nov 3 2020 SWVR that were changed and deleted on the Dec 4 2020 SWVR. There are also records added to the Dec 4 2020 SWVR that don't exist on the Nov 3 2020 SWVR. Most of the actions were beyond what would be considered normal voter registration processing. Below are a few of many, many examples:

Only highlighted two from 12/4 showed up on Nov 3

SOS_VOTERID	COUNTY_NUMBER	COUNTY_ID	LAST_NAME	FIRST_NAME	MIDDLE_NAME	PARTY_AFFILIATION	RESIDENTIAL_ADDRESS1	RESIDENTIAL_SECONDARY

There are a lot more discrepancies between the two files. It is recommended that Butler County Board of Elections obtain the files and review the differences between the Nov 3 2020 data and Dec 4 2020 data directly. We can provide chain of custody receipts and upload files to you. Alternately, you can request the data directly from the Secretary of State.

PRECINCT ANALYSIS

282 Precincts total

- 113 precincts have more than 100 voters who haven't voted going back to the year 2000
- 16 precincts have excessively high voter turnout > 85%
- 48 precincts have high turnout > 83%
- 3 precincts have extremely low voter participation < 25% in the college town of Oxford
- 26 precincts have very low turnout < 50%
- 61 precincts have low voter participation < 63%
- Liberty Twp 3 has 346 more votes on Dec 4 SWVR than Official/Certified SOS/BOE Reporting

A MINIMUM OF 30 INDIVIDUALS REGISTERED TO VOTE USING COMMERCIAL MAIL STORES AS RESIDENCE ADDRESS FOR VOTING PURPOSES, IN VIOLATION OF ORC 3503.02, AND 19 OF THESE INDIVIDUALS ILLEGALLY VOTED, IN VIOLATION OF ORC 3599.12

Ohio Revised Code states:

§ 3503.02. Rules for determining residence.

All registrars and judges of elections, in determining the residence of a person offering to register or vote, shall be governed by the following rules:

(A) That place shall be considered the residence of a person in which the person's habitation is fixed and to which, whenever the person is absent, the person has the intention of returning.

The Election Official Manual dated 8/06/2019 states:

Chapter 3: Voter Registration

3-5

4. No Post Office Box or Mail Store as Voting Residence Address

A person cannot list a post office box or a commercial mail store as their residence for voting purposes. A voter can provide the board of elections with an additional address that is a post office box for mailing purposes.

Each board must regularly review the eligibility of any elector whose voter registration address is an address at which the individual rents a postal box to obtain mail, such as an address for a branch of the United States Postal Service (USPS) or a commercial entity such as Mail Boxes Etc® or the UPS Store®. Additionally, each board must program its county voter registration system to flag the usage of any such address by an elector in the future or regularly examine its county voter file to determine the eligibility of any individual registering to vote using such an address, prospectively. To accomplish these tasks, each board must compile a list of the addresses for all USPS and commercial mailbox entities in its county at which patrons may rent postal boxes and compare the resulting list to the county's voter registration system to determine if any voters are registered at these addresses. The board of elections then must determine the residence qualifications of these voters¹³ using the guidelines established by Ohio law.

As detailed below, a minimum of 30 individuals registered to vote using a minimum of 5 Butler County commercial mail stores as their residence for voting purposes, a violation of ORC 3503.02. Furthermore, 19 individuals illegally voted using the invalid voter registrations, in violation of ORC 3599.12. appear to have registered to vote using commercial mail stores as their residence for voting purposes. 11 individuals voted in the Nov 3 2020 election. 16 individuals voted in multiple previous elections. With current information available, previous illegal voting may have occurred as early as 2000 or 2002.

Shown in red font are registration dates that are later than voting history (for example Randy Washington shows a Registration Date of November 7, 2006; however, his Voting History shows he voted since the year 2004. The Voting Management System is not transparent in matching Voting History to a specific address.

Also in red font are registered voters WHO VOTED in CONFIRMATION voter status. For example, Tracy Lynn Wallace's voter registration is in CONFIRMATION voter status and she is shown as voted in the Nov 3 2020 election; however, her vote may have been a Provisional ballot. Her voter status remained CONFIRMATION on the Dec 4 SWVR file.

41,522 NEW VOTER REGISTRATIONS BETWEEN JAN 1 2020 & OCT 5 2020 OF WHICH 33,372 VOTED NOV 3 2020

- 41,522 is an unusually high number of new voter registrations for one year. Neighboring Hamilton County, whose population is more than twice the size of Butler County had a comparable 43,498 new voter registrations in the same time period.
- Butler County's voting age population change between 2016 and 2020 was around 4,800 which is an average of around **1,200** new voting age population per year.
- There were new voter registrations **EVERY SINGLE DAY** in the nine month period Jan 1 2020 and Oct 5 2020.
- There were over 8,000 new voters who registered in Butler County in Oct 2020.
- New voter registrations came in with the following date-of-births:
 - **1,918** new voter registrations for birth year 2002 (18 year olds)
 - **EVERY SINGLE DAY** Jan 1 through Nov 3 2002 with the exception of 1 day (there were date-of-births in **308** out of **309** days in 2002)
 - **1,472** new voter registrations for birth year 2001 (19 year olds)
 - **EVERY SINGLE DAY** Jan 1 2001 through Dec 31 2001 with the exception of 9 days (there were date-of-births in **356** out of **365** days in 2001)
 - **914** new voter registrations for birth year 2000 (20 year olds)
 - **964** new voter registrations for birth year 1999 (21 year olds)
 - **400** new voter registrations for birth year 1998 (22 year olds)
- 42% of all new voter registrations in Butler County between Jan 1 2020 and Oct 5 2020 were by 18 to 22 year olds (5,668 out of 13,489), while all colleges were locked down due to COVID beginning in Mar 2020.
- 1,542 new voter registrations were received on October 5, 2020, the deadline to vote
- County IDs do not appear to be sequential for these 1st time registered voters. Below are a few examples. Note that State IDs do not appear to be sequential either.

STATE ID	COUNTY ID	REGISTRATION DATE
OH0025319634	699749	2020-10-04
OH0025319988	699767	2020-09-30
OH0025320515	699780	2020-08-21
OH0025323814	699836	2020-01-14
OH0025382509	699837	2020-04-20

**23,402 VOTERS WITH ‘CONFIRMATION’ VOTER-STATUS ON DEC 4 2020
6,778 HAVE REGISTRATION DATES BETWEEN 1944 AND 2010**

These voters registered to vote with valid identification. At some point, whether when originally registering to vote or when updating a voter record that creates a new registration id and registration date (e.g. address change within Ohio but out of existing precinct), a Confirmation Card was mailed to the registered voter at their residence address. The voter never responded to the confirmation request, has not updated their voter registration information and has never cast a ballot since the voter record was in Confirmation Voter-Status. Many of the Registration Dates are very old, going back to 1944.

How long have these voter registrations been in Confirmation status?
What is the original registration date for these voters in Confirmation status?

When was the last time Voter-Records were removed from the voter registration database with a status of Confirmation? How often do these record purges happen?

Keeping voter registrations on the Voter Management System for an extended period of time deceives We The People of Butler County by manipulating the total registered voter count along with the Voter Turnout %. Reporting may falsely report a higher number of ‘Active’ registered voters to include voters in ‘Confirmation’ status who are not have had any activity on their voter record for a very long time.

Sample of registered voters who may have been in Confirmation Voter-Status for a very long time didn’t vote Nov 3 2020

436 VOTERS WHO REGISTERED TO VOTE IN 2020 HAVE 'CONFIRMATION' VOTER-STATUS ON DEC 4 2020 SWVR

436 voters went to the trouble to register to vote in 2020 with a valid identification, but did not return a Confirmation Card after registering to vote and did not vote in the Nov 3 2020 election. Why go to the trouble to register to vote and not return a Confirmation Card or vote?

What is the source of these voter registrations?

214 VOTERS HAVE 'CONFIRMATION' VOTER-STATUS ON DEC 4 2020 AFTER VOTING IN NOV 3 2020 ELECTION

214 voters did not return a Confirmation Card after registering to vote. It is unknown at the present time as to whether Confirmation Cards were returned undeliverable. The voter was able to cast a ballot after providing acceptable identification in the Nov 3 2020 election. It appears Voter-Status was not changed from Confirmation to Active following casting a ballot.

Why wasn't the Voter-Status changed from Confirmation to Active?

What is the source of these voters in Confirmation Voter-Status?

What is the voting method in which these voters cast a ballot in which Voter-Status was not updated?

Sample of registered voters in Confirmation Voter-Status that voted Nov 3 2020 and Voter-Status not updated to Active

298 VOTERS WERE REGISTERED TO VOTE ON A FEDERAL HOLIDAY AND 186 OF THEM VOTED NOV 3 2020

January 1, July 4 and December 25 are federal holidays every year in which federal workers do not work, and no USPS mail is received. Between 1/1/1978 and 1/1/2017, there were 97 new voter registrations entered into the Voter Management System with a registration date of January 1, July 4 or December 25. Keep in mind, online voter registrations became effective in Ohio in 2017. In addition, 75 of these voters cast ballots on Nov 3 2020. Are these valid voter registrations? Are these valid votes counted?

Beginning 1/2/2017 to 7/4/2020, there were 201 new voter registrations entered into the Voter Management System with a registration date of January 1, July 4 or December 25. 67 new voter registrations appear in the Voter Management System with a registration date of July 4 2022. How are these registrations “received” and processed on federal holidays when federal employees do not work? Why are there so many new voter registrations on July 4 2022? There were 131 votes cast in the Nov 3 2020 election from the 201 voter registrations on federal holidays. Are these valid voter registrations? Are these valid votes counted?

Note: State Voter IDs are not in sequential order based on Registration Date.

INFLATED VOTER ROLLS

4,120 REGISTERED VOTERS ON THE VOTER MANAGEMENT SYSTEM HAVE A REGISTRATION DATE EARLIER THAN JAN 1 2014 AND HAVEN'T VOTED GOING BACK TO JAN 1 2000.

How are there registered voters on the Voter Management System if they haven't voted going back to Jan 1 2000? f

What harm are Inactive/longterm Confirmation status registered voters on the Voter Management System Database, even though they don't vote?

- (1) They inflate the registered voter count, which manipulates the true number of residents who are interested in voting.
- (2) They distort the Voter Turnout %. Some precincts may have over 100% Voter Turnout if inactive/longterm Confirmation status voters were removed from the voter rolls.
- (3) The inactive/longterm Confirmation status unused Voter Registration Records provides an opportunity for bad actors to steal their identity for illegal voting activity.

1st page of 4,120 registered voters who haven't voted going back to Jan 1 2000

28 REGISTERED VOTERS ON THE VOTER MANAGEMENT SYSTEM WERE TOO YOUNG TO REGISTER AT THAT TIME

The computer system in which registered voter applications are entered lacks a very basic but necessary verification step in which the Registration Date entered must be at least 17+ years beyond the date of birth entered. Butler County Board of Elections also appears to lack oversight to catch and correct these simple errors. Are these valid registrations and votes?

OHIO HAD ELECTION INTEGRITY ISSUES LONG BEFORE 2020

Widespread election integrity issues in Butler County and Ohio didn't just start with the 2020 presidential election. The chart below by Ohio's own Dr. Frank shows Election Turnout History in Ohio, comparing the voting age population, number of registered and ballots cast going back to 1976. Beginning in the early 1990's, Ohio's number of registered voters began rising significantly higher than the 18+ voting age population. Then in the early 2000's, the Ballot Stuffing began where the new 'phantom voters' which infiltrated the voter registration rolls, injected upwards of 10% more ballots into presidential elections beginning and continuing through the 2020 presidential election. The spreadsheet on the following page shows how Butler County's data closely mirrors Ohio's data.

BUTLER COUNTY MIRRORS OHIO IN ELECTION ISSUES

The spreadsheet below shows Ohio's number of registered voters rising significantly higher than the 18+ Voting Age Population beginning in the 1990s. Registered Voters increased 29,089 between 1996 and 2000 while Voting Age Population increased 11,246 during the same period. Registered Voters continued to grow by 21,747 and 22,672 in the four-year periods leading up to the 2004 and 2008 elections while the Voting Age Population increased by 11,992 and 17,184. There was a correction in Registered Voters leading up to the 2012 election, likely due to an impending lawsuit demanding Ohio clean up it's voter rolls. With the padded voter rolls already in place and compliance requirements from the inflated voter roll lawsuit settlement, new Voter Registrations increased at a slower pace, but still at or above 100% of Voter Population increases during 2016 and 2020.

Ballots Cast also increased dramatically over the past 20+ years. In 2000, there were 14,413 more Ballots Cast than in 1996 while the Voting Age Population increased 11,246. Ballot stuffing was at it's highest in 2004, where an additional 29,984 ballots were cast when the Voting Age Population increased by 11,992. With the padded Ballots Cast from the 2000 and 2004 elections, Ballots Cast increased at a closer pace more in line with Voting Age Population through 2016. Then came 2020. Ballots Cast increased by 11,527 while the Voting Age Population increased by an estimate of 4,795.

The percentage of Registered Voters to Voting Age Population was at 78% in 1996 and increased to 86% in 2000. Voter Turnout % (Ballots Cast/Registered Voters) was 67% in 1996 and increased over time to 73% in 2020. Ballots Cast to Voting Age Population % was 52% in 1996 and jumped over the years to 63% in 2020.

Legal increases in Registered Voters and Ballots Cast are encouraged; the keyword is **LEGAL**.

OHIO HAD ELECTION INTEGRITY ISSUES LONG BEFORE 2020

During the 2008 presidential election, **102 precincts in Ohio had over 100% voter turnout, including 2 precincts in Butler County.** There were over sixty thousand (60,133) more ballots counted in these precincts than were registered voters. This is **NOT** legal and very likely altered the results of many Ohio election races. The election results in these precincts **NEVER** should have been certified; yet the results were signed off by 102 precincts, including 2 in Butler County, followed by 11 counties, including Butler County, and finally by Ohio Secretary of State Jennifer Brunner. Keep in mind, Ballot Stuffing is obvious in these precincts where ballots exceed registered voters; imagine all the other precincts that may have Ballot Stuffing as well, but stay under the radar as their overall ballots cast do not exceed registered voters. This explains why it is so important to have accurate voter registration rolls.
